DMR two-way radio

Digital, compact and easy to use

DMR (Digital Mobile Radio) is a European standard developed as a comparable alternative to analogue radio networks, but with all the advantages of digital technology. It guarantees more efficient communication and offers greater functionality, capacity and reach than analogue radio communication equipment.

With our digital two-way radio, you can use two voice channels per frequency. The DMR two-way radios are ideal for users who are looking for robust and reliable two-way radios. Our DMR two-way radios satisfy all technical requirements of professional users.
